

Microfiber Wet Mop Rental Service

Microfiber Mops contain hundreds of thousands of porous microscopic fibers that remove bacteria from floors and other room surfaces.

DESCRIPTION

The Industrial Microfiber Mops are the highest quality microfiber mops available on the market. Each mop is developed to last hundreds of washings, and everyday use. With microfiber products you can clean 20% faster and be 100% more effective.

COLOR

Light Orange

INVENTORY

Inventory equals twice the maximum number of mops the customer will need at their location.

DISTRIBUTION

Delayed Even Exchange; quantity of soiled mops picked up one delivery equals the quantity delivered clean the next scheduled delivery. The customer is responsible for removal of soiled mops from mop frame.

DELIVERY COUNTS

Your Gallagher Uniform Route Service Representative will count the soiled mops on-site and record the "picked-up" count in the hand held computer to be returned the next scheduled delivery.

DELIVERY SCHEDULE

Weekly or Every Other Week
